Basic Requirements of Modern Criminal Liability

Under United States law, an element of a crime is one of a set of facts that must all be proven to convict a defendant of a crime. Before a court finds a defendant guilty of a criminal offense, the prosecution must present evidence that, even when opposed by any evidence the defense may choose, is credible and sufficient to prove beyond a reasonable doubt that the defendant committed each element of the particular crime charged. The component parts that make up any particular crime vary dependin

Element (criminal law) - Wikipedia

For most people, familiarity with criminal justice comes in fragments -- from movies, television, and books. But when we become personally involved in the criminal law system, real-life issues come into focus and the need for information and assistance can arise quickly.

Racially (and Religiously) Aggravated Criminal Damage. Section 30 of the Crime and Disorder Act 1998 (as amended by the Anti-Terrorism, Crime and Security Act 2001) creates an offence of racially or religiously aggravated criminal damage, based on the basic offence of criminal damage under Section 1(1) Criminal Damage Act 1971.

Hall, Jerome. General Principles of Criminal Law. Second Edition. Indianapolis: The Bobbs Merrill Company, [1960]. xii, 642 pp. Reprint available January, 2005 by the Lawbook Exchange, Ltd. ISBN 1-58477-498-3. Cloth. \$125. * The standard one-volume treatise based on classic legal-realist principles. As its title suggests, Hall provides more than a thorough overview of the subject; he analyzes the principles that comprise its foundations with an emphasis on their creation and definition by officials. This process is explored in its chapters on legality, mens rea, harm, causation, punishment, strict liability, ignorance and mistake, necessity and coercion, mental disease, intoxication and criminal attempt, as well as its general chapters on criminology, criminal theory and penal theory. Acclaimed when its first edition appeared in 1947, it has been cited regularly ever since.

This book examines the rapid development of the fundamental concept of a crime in international criminal law from a comparative law perspective. In this context, particular thought has been given to the catalyzing impact of the criminal law theory that has developed in major world legal systems upon the crystallization of the substantive part of international criminal law. This study offers a critical overview of international and domestic jurisprudence with regard to the construal of the concept of a crime (actus reus, mens rea, defences, modes of liability) and exposes roots of confusion in international criminal law through a comprehensive comparative analysis of substantive criminal laws in selected legal jurisdictions.

Argues that the real need is for fundamental rethinking of crime and punishment, rather than short-term tinkering with a prison system that is in an intolerable state of crisis.

Derived from the renowned multi-volume International Encyclopaedia of Laws, this book provides a practical analysis of criminal law in China. An introduction presents the necessary background information about the framework and sources of the criminal justice system, and

Download Ebook Basic Requirements Of A Criminal Act Pearson

then proceeds to a detailed examination of the grounds for criminal liability, the justification of criminal offences, the defences that diminish or excuse criminal liability, the classification of criminal offences, and the sanctions system. Coverage of criminal procedure focuses on the organization of investigations, pre-trial proceedings, trial stage, and legal remedies. A final part describes the execution of sentences and orders, the prison system, and the extinction of custodial sanctions or sentences. Its succinct yet scholarly nature, as well as the practical quality of the information it provides, make this book a valuable resource for criminal lawyers, prosecutors, law enforcement officers, and criminal court judges handling cases connected with China. Academics and researchers, as well as the various international organizations in the field, will welcome this very useful guide, and will appreciate its value in the study of comparative criminal law.

International lawyers usually disregard the vital functions that general principles of law may play in the decisions of international courts and tribunals. As far as international criminal law is concerned, general principles of law may be crucial to the outcome of an international trial, inter alia because the conviction of an accused in respect of a particular charge may depend on the existence of a given defence under this source. This volume examines the role that general principles of law have played in the decisions of international criminal courts and tribunals. In particular, it analyses their alleged 'subsidiary' nature, their process of determination, and their transposition from national legal systems into international law. It concludes that general principles of law have played a significant role in the decisions of international criminal courts and tribunals, not only by filling legal gaps, but also by being a fundamental means for the interpretation of legal rules and the enhancement of legal reasoning.

What implications are there for the criminal law from the philosophy of action? Providing a unified account of the theory of action presupposed by both Anglo-American criminal law and the morality that underlies it, Moore develops a coherent theory of action in philosophy and assesses its effects on criminal law.

This is a comprehensive, insightful, lucid, intense and unrivalled text on the general part of the criminal law in Cameroon. Beginning with an account of the historical development of the criminal law generally, the author proceeds to analyse and discuss in detail the principles governing application of the criminal law, criminal responsibility, participation in crime, penalties, and sentencing. These principles are broadly the same in other jurisdictions. The book balances theoretical content with case-law illustrations to enhance readability, comprehension and assimilation. It is an invaluable source and essential reading for law students and teachers, and lawyers in private practice and government service.

Download Ebook Basic Requirements Of A Criminal Act Pearson

This volume is designed to provide a quick yet comprehensive reference to the jurisprudence of both the ICTY and to some extent, the ICTR. It goes significantly beyond the Judgements of the Tribunal into the Orders and Decisions of the Trial and Appeals Chambers. The book is organized by sections, according to each Article of the Statute and Rule of procedure and evidence. Following the text of the Article or Rule, there is a Commentary section, where appropriate and a digest of Judgements, Decisions and Orders of the Appeals Chamber and the Trial Chambers. Materials will be found in the book from the beginning of the operation of the ICTY through the Furundžija Appeals Judgement and the amendments to the Rules in July 2000.

The Namibian Constitution entrenches fundamental rights and freedoms, and provides for their vertical and horizontal application in any criminal process. However, since Independence in 1990, Namibia has developed its own criminal jurisprudence. Criminal procedure and law are taking new shape. Namibian courts have pronounced on criminal issues, and legislation has been passed to keep up with the demands, aspirations, spirit, and vision of the Namibian Constitution and its people. CLEVER MAPAURE, NDJODI NDEUNYEMA, PILISANO MASAKE, FESTUS WEYULU and LOIDE SHAPARARA have written an invaluable book that deals with these developments. It explains the rights of individuals, the duties of law enforcement officers, and the procedures of the courts in criminal cases. The Law of Pre-Trial Criminal Procedure in Namibia introduces readers to the fundamental principles and values underlying Namibian criminal law, through a systematic examination of the provisions of the Criminal Procedure Act, 1977 (Act No. 51 of 1977) as amended, which was originally passed by the legislature of South Africa, and still regulates criminal procedure in Namibia, the amendments to it since 1990, and relevant Namibian Case Law. The book captures and discusses the law relating to the pre-trial criminal process in Namibia in detail, from the roles of the prosecutor and the police, search, seizure and forfeiture, interrogation, notices and summons, arrest, court appearance, bail, criminal charges, disclosure, diminished capacity, right to assistance, to pleas and plea-bargaining.

'The Oxford Companion to International Criminal Justice' is the first major reference work to provide a complete overview of international criminal law. It offers a comprehensive survey of the issues surrounding international humanitarian law and human rights through a range of entries by the leading minds in the area.
