It's time to put a new spin on this classic backyard grilling staple with some advice from the experts in Kebabs. These grillers traveled the planet and found the best skewered meals it had to offer. Everyone loves grilling up kebabs, but it's easy to fall into the mushy, pepper, chicken/beef rut. In Kebabs, Derrick Riches and Sabrina Baksh take this quick and easy grilling

method for a brand new spin. They traveled the backroads of the Barbecue Belt and studied street-food stalls where skewered, grilled foods are most famous, like Greece, Turkey and the Middle East, India, and even Japan (yakitori) and France (brochettes). There are ample recipes for beef, chicken, fish and seafood, vegetables, and even fruit, plus vegan substitutions are included for meat recipes. Kebabs includes plenty of technique guidance, too. Are metal or wood skewers better for grilling? Do you really need to soak wooden skewers before cooking? Not to mention a myriad of rubs, sauces, and mops that make kebabs optimally flavorful and moist, Kebabs makes backyard grilling more globally adventuresome, and flavorful, than it's been before -- all with minimal prep time and effort.

Consider something bigger, like a leg of lamb, a whole turkey, or a full pork shoulder, and you have a problem--most grills will completely char the outside long before the inside is cooked to a safe temperature. The solution: get a rotisserie. The Rotisserie Grilling Cookbook shows how to set

up, maintain, use and troubleshoot a rotisserie spit. It includes 105 recipes to expand your outdoor cooking repertoire, including a dry-brined Thanksgiving turkey, a whole country ham for other holidays, a whole chicken, duck, game hens, and big cuts like a beef ribeye roast or a leg of lamb. Beyond the meat recipes that are the core of the book, it includes rubs, glazes, and mops that are specifically crafted for long, slow cooking over a rotisserie, and even some ideas, like a spit-roasted whole pineapple, from beyond the world of poultry and meats.
