Return of capital (ROC) is a payment, or return, received from an investment that is not considered a taxable event and is not taxed as income.

Return of Capital Definition - investopedia.com
Capital Returns is a comprehensive introduction to the theory and practical implementation of the capital cycle approach to investment.

Capital Returns | SpringerLink
The term capital return refers to the part of the return from an asset that is delivered purely through change in the price of that asset. As such, capital return excludes any income that has been delivered by that asset (when income is included in the return calculation, it is known as the total return).
