One of the world's most popular four-cylinder engines, the A-series, powers Minis, Morris Minors, MG Midgets, A-H Sprites, Metros, Austin Americas and many more. This text presents a complete guide to obtaining maximum power with reliability from 850 and 1000cc versions of this engine.

The aim of this book is to help students write mathematics better. Throughout it are large exercise sets well-integrated with the text and varying appropriately from easy to hard. Basic issues are treated, and attention is given to small issues like not placing a mathematical symbol directly after a punctuation mark. And it provides many examples of what students should think and what they should write and how these two are often not the same.

!Beautifully written, painfully honest! first-person accounts of racial profiling, as experienced by twelve black men from all over America (Michelle Alexander, author of The New Jim Crow). In an era of contentious debate about controversial police practices and, more broadly, the significance of implications of race throughout American life, 12 Angry Men is an urgent, moving, and timely book that exposes ia serious impediment to the collective American Dream of a colorblind society! (Pittsburgh Urban Media). In this (extraordinarily compelling) book, a dozen eloquent authors tell their own personal stories of being racially profiled. From a Harvard law school student tackled by a security guard on the streets of Manhattan, a federal prosecutor detained while walking in his own neighborhood in Washington, DC, and a high school student in Colorado arrested for (loitering) in the subway station as he waits for the train home, to a bike rider in Austin, Texas, a professor at a Big Ten university in Iowa, and the head of the ACLU's racial profiling initiative (who was pursued by national guardsmen after arriving on the red-eye in Boston's Logan airport), here are true stories of law-abiding Americans who also happen to be black men (Publishers Weekly).

These are in-depth profiles of India's biggest business barons. These are the men who are powering new India's leap into the 21st century; the faces behind the great Indian success story. You'll find them all here. The traditional big names of Indian industry: Ratan Tata and Kumar Mangalam Birla. The new gurus of information technology: Nandan Nilekani and Azim Premji. The wizards of the sunrise entertainment and telephony sector: Sunil Bharti Mittal, Subhash Chandra and Rajeev Chandrasekhar . And many more. Essential to the depth of these profiles is that all of the subjects sat down for hours to tell Vir Sanghvi about their hopes, their dreams and their heartbreaks. These are profiles based on fresh information, direct from the mouths of the men of steel themselves. Nobody who wants to understand the contours of the Indian success story can afford not to read this book. It is a highly readable insight into the new India.
