Die Welt der Kulte: Mythologie und Rituale in der Weltgeschichte
The present work, in 4 volumes, is a compendium of traditional cosmologies worldwide. The material includes the global mythology of creation and destruction, but also comprises information drawn from other areas of traditional knowledge, ritual, iconography, shamanism, costume, and dance.

- Die Nacht der Schlange - vereint Geschichten, Gedichte, Maerchen und Reiseberichte. Heitere und treffliche Prosa erzaehlt von einmaligen Erlebnissen auf der Insel Sylt, am oberbayrischen Badeseen, am sued-afrikanischen Kap oder in der beruehmten Hofreitschule zu Wien. Es geht auch um eine dramatische Sonnenfinsternis und die Verpackung des Reichstags in Berlin. In ihrer Lyrik malt Baerbel Will-Trebeg gerne mit Woertern und erschafft vielschichtige Gefuehlswelten. Der Freiheit der Phantasie sind keine Grenzen gesetzt, wenn Spinne Klara, Eule Alabaster oder die Interfee uns in ihre Maerchenwelten entfuehren. Diese spannende Sammlung wird durch eine Chronologie der Veroeffent-lichungen und Illustrationen von Gerhard Will ergaenzt.

Die in diesem Tagungsband versammelten Beiträge widmen sich der Analyse von facettenreichen Deutungen und Bedeutungen der Philosophie als Wissenschaft sowie den unterschiedlichen Auslegungen des Wissenschaftsbegriffs im Deutschen Idealismus. Dabei kommen die bedeutendsten Vertreter der Epoche von Wolff über Kant, Fichte, Hegel und Schelling bis hin zu Schopenhauer zu Wort. Der Sammelband ist das Ergebnis einer im Juni 2019 veranstalteten gleichnamigen internationalen Tagung. Die Beiträge des Bandes entsprechen weitestgehend den dort gehaltenen Vorträgen. Die Tagung ist die erste Veranstaltung der Forschungsgruppe 'ideal.ist - Kritizismus und Idealismus: Systeme, Kontext und Rezeption', die seit 2018 an der Johannes Gutenberg-Universität Mainz forscht.*****The conference papers collected in this volume are concerned with the analysis of the multifaceted interpretations and meanings of philosophy as science, and with the different interpretations of the concept of knowledge in German Idealism. The most significant representatives of the era, from Wolff via Kant, Fichte, Hegel and Schelling to Schopenhauer, are represented. The volume is based on the proceedings of an international conference of the same name held in June 2019. The contributions reflect the papers given there. The conference was the first event held by the research group 'ideal.ist - Criticism and Idealism: Systems, Context and Reception' which has been active at the Johannes Gutenberg University of Mainz since 2018.
