Dreams and Memory | Psychology Today

Dreaming And Memory While scientists have yet to identify the exact cause of our dreams, there is a growing consensus that the purpose our dreams serve has much to do with the way we process memories. REM sleep (when dreaming occurs) triggers the parts of our brain responsible for learning and memory recall.

Why Do We Dream? Sleep, Memory, And The Science of Dreaming

As mentioned above, dreams contain disconnected memory fragments: places we 've been, faces we 've seen, situations that are partly familiar.

If you dream of space surrounding you or a building, this kind of space may signify the low competition potential. The dream may also communicate your own need for space to enable you to accomplish your goals without being “ cramped ” through any kind of external pressures. If you dream of “ outer space ” , you are searching for higher meanings. This kind of dream indicates that it is time ...
