single line diagram with symbols for pipe components, weld points, and supports.

Isometric drawings are used: By fabricator to fabricate the line.

A Short briefing on “ Types of Piping Drawings ” – What Is ...

A piping isometric drawing is a 2D drawing in which piping is represented like a 3D drawing. In CAD drawing, only x and y co-ordinates are used to draw entire drawing. Isometric Layout: Isometric lines can be in vertical direction and two other directions at 30 ° from horizontal. All directions of the pipe may match the three isometric axis lines.
