This clinical practice guideline, endorsed by the American Heart Association, is intended to foster a patient- and family-centered approach to care, reduce unnecessary and costly medical interventions, improve patient diagnoses and outcomes, support implementation, and provide direction for future research.

**Clinical Practice Guideline for Screening and Management**

The Academy created the policy statement, "Classifying Recommendations for Clinical Practice Guidelines." To address the need for transparency and rating of the strength of recommendations in clinical practice guidelines. To ensure the need for transparency, even when evidence is lacking, the policy statement "Toward Transparent Clinical Policies" emphasizes that consensus-based statements are acceptable, but should be clearly communicated as such to the reader. To view all AAP clinical ...
