The Invisible Partners: How the Male and Female in Each of ...

The Invisible Partners is a very accessible explanation of the unknown female and male qualities within each of us. The more we can take the time to find these qualities, conscious and unconscious, acknowledge and accept them, the more balanced our relationships will be - within our self, with a partner, and with friends.

Maurice Blanchot (1907–2003) was one of the most important writers of the twentieth century. His novels, shorter narratives, literary criticism, and fragmentary texts exercised enormous influence over several generations of writers, artists, and philosophers. In works such as *Thomas the Obscure*, *The Instant of my Death*, *The Writing of the Disaster*, *The Unavoidable Community*, Blanchot produced some of the most incisive statements of what it meant to experience the traumas and turmoils of the twentieth century. As a journalist and political activist, Blanchot had a public side that coexisted uneasily with an inclination to secrecy, a refusal of interviews and photographs, and a reputation for mysteriousness and seclusion. These public and private Blanchots came together in complicated ways at some of the twentieth century’s most momentous occasions. He was among the public intellectuals participating in the May ’68 revolution in Paris and helped organize opposition to the Algerian war. During World War II, he found himself moments away from being executed by the Nazis. More controversially, he had been active in far-right circles in the ’30s. Now translated into English, Christophe Bident’s magisterial, scrupulous, much-praised critical biography provides the first full-length account of Blanchot’s itinerary, drawing on unpublished letters and on interviews with the writer’s close friends. But the book is both a biography and far more. Beyond filling out a life famous for its obscurity, Bident’s book will transform the way readers of Blanchot respond to this major intellectual figure by offering a genealogy of his thought, a distinctive trajectory that is at once imaginative and speculative, at once aligned with literary modernity and a close companion and friend to philosophy. The book is also a historical work, unpacking the ‘transformation of convictions’ of an author who moved from the far-right in the 1930s to the far-left in the 1950s and after. Bident’s extensive archival research explores the complex ways that Blanchot’s work enters into engagement with his contemporaries, making the book also a portrait of the circles in which he moved, which included friends such as Georges Bataille, Marguerite Duras, Emmanuel Levinas, Michel Foucault, and Jacques Derrida. Finally, the book traces the strong links between Blanchot’s life and an oeuvre that nonetheless aspires to anonymity. Ultimately, Bident shows how Blanchot’s life itself becomes an oeuvre—becomes a literature that bears the traces of that life secretly. In its even-handed appraisal, Bident’s sophisticated reading of Blanchot’s life together with his work offers a much-needed corrective to the range of cruder accounts, whether from Blanchot’s detractors or from his champions, of a life too easily sensationalized. This definitive biography of a seminal figure of our time will be essential reading for anyone concerned with twentieth-century literature, thought, culture, and politics.

Is it really possible for a husband and wife to successfully live, love and work together? This book is written by people who have been through it all, made the mistakes and experienced the pitfalls. It provides a no-holds barred, warts and all look at the process and steps couples need to succeed. In language unaffected by corporate gobbledegook and management jargon, Louise and William chart how they came back from the brink of divorce to create a successful business and relationship. An invaluable resource for anyone in business, or thinking of going into business with their spouse, "The Invisible Partnership" will help you to structure a company according to your core values, and help to deliver the life and profitability you have always dreamed of. Just a few of the wealth of insights you will discover are: How by combining, instead of separating work and home, you can energise both 'worlds' in ways you have never imagined; That disagreements at work need never spill over into the home, rather, they can be the building blocks of a new fulfilment; Why normal management theories don't work in businesses run by life partners. By understanding unique operating principles you will avoid the pitfalls. And much, much more. This is a journey of transformation. A journey of self-discovery. An inspiring personal development program.

Data is fundamental to the modern world. From economic development, to healthcare, to education and public policy, we rely on numbers to allocate resources and make crucial decisions. But because so much data fails to take into account gender, because it treats men as the default and women as atypical, bias and discrimination are baked into our systems. And women pay tremendous costs for this bias, in time, money, and often with their lives. Celebrated feminist advocate Caroline Criado Perez investigates shocking root cause of gender inequality and research in *Invisible Women*™, diving into women’s lives at home, the workplace, the public square, the doctor’s office, and more. Built on hundreds of studies in the US, the UK, and around the world, and written with energy, wit, and sparkling intelligence, this is a groundbreaking, unforgettable exposé that will change the way you look at the world.

Award-winning research psychologist Michael E. Addis identifies and provides answers surrounding the long-unspeken epidemic of silence and vulnerability in men Drawing on scientific research, as well as his own personal and clinical experience, award-winning research psychologist Michael E. Addis describes in this book an epidemic of personal, relational, and societal problems that are caused by the widespread invisibility of men’s vulnerabilities. From increasing rates of suicide among men, to alcohol abuse, to violence and school shootings, his research reveals the continued cost of staying silent when emotional, physical, or spiritual pain enters men’s lives. In the spirit of such bestsellers as William Pollack’s *Real Boys*, Addis identifies the specific problems that result from men’s silence and invisibility, what causes them, and how they can be changed. Addis provides readers with compelling stories of the causes and consequences of silence and invisibility in real men’s lives. *Invisible Men* shows both male and female readers how they can break through the gauntlets that appear to protect men, but in reality cause severe harm to men, women, and families.

When you are showered with attention, it can feel incredibly romantic and can blind you to hints of problems ahead. But what happens when attentiveness becomes domination? In some relationships, the desire to control leads to jealousy, threats, micromanaging—even physical violence. If you or someone you care about are trapped in a web of coercive control, this book provides answers, hope, and a way out. Lisa Aronson Fontes draws on both professional expertise and personal experience to help you: *Recognize controlling behaviors of all kinds. *Understand why this destructive pattern occurs. *Determine whether you are in danger and if your partner can change.

*Protect yourself and your kids. *Find the support and resources you need. *Take action to improve or end your relationship. *Regain your freedom and independence.

E. Schwab’s genre-defying tour de force. *A Life No One Will Remember. A Story You Will Never Forget.* France, 1714: in a moment of desperation, a young woman makes a Faustian bargain to live forever—and is cursed to be forgotten by everyone she meets. Thus begins the extraordinary life of Addie LaRue, and a dazzling adventure that will play out across centuries and continents, across history and art, as a young woman learns how far she will go to leave her mark on the world. But everything changes when, after nearly 300 years, Addie stumbles across a young man in a hidden bookstore and he remembers her name. Lambda Literary Award 2014 Finalist in LGBT Nonfiction Foreword Reviews' INDIEFAB Book of the Year Award 2014 Finalist in Family & Relationships Independent Publisher Book Awards 2015 (IPPY) Silver Medal in Sexuality/Relationships Next Generation Indie Book Awards 2015 Winner in LGBT -- What if you weren't sexually attracted to anyone? A growing number of people are identifying as asexual. They aren't sexually attracted to anyone, and they consider it a sexual orientation—like gay, straight, or bisexual. Asexuality is the invisible orientation. Most people believe that “everyone” wants sex, that “everyone” understands what it means to be attracted to other people, and that “everyone” wants to date and mate. But that’s where asexual people are left out—they don’t find other people sexually attractive, and if and when they say so, they are very rarely treated as though that’s okay. When an asexual person comes out, alarming reactions regularly follow: loved ones fear that an asexual person is sick, or psychologically warped, or suffering from abuse. Critics confront asexual people with accusations of following a fad, hiding homosexuality, or making excuses for romantic failures. And all of this contributes to a discouraging master narrative: there is no such thing as “asexual.” Being an asexual person is a lie or an illness, and it needs to be fixed. In *The Invisible Orientation*, Julie Sondra Decker outlines what asexuality is, counters misconceptions, provides resources, and puts asexual people’s experiences in context as they move through a very sexualized world. It includes information for asexual people to help understand their orientation and what it means for their relationships, as well as tips and facts for those who want to understand their sexual friends and loved ones.

Whether he’s conscious of it or not, a man’s mother is the model for just about every relationship with a woman he has for the rest of his life. Sometimes it’s obvious (just ask his wife or girlfriend), sometimes it’s more subtle, but when you see it, it becomes crystal clear. For fifteen years, this book has helped men understand their mothers’ pervasive influence over the way they relate to women—both the positive and negative aspects of it. But more than that, it has helped thousands of men break free of old relationship patterns. Gurian gives men a wealth of practical exercises and meditations they can use to recognize their mothers’ influence in relationships, and to establish a healthy and rewarding new basis for relationships that will benefit themselves and the women in their lives as well. This new edition of the book formerly titled *Mothers, Sons, and Lovers* includes a new preface and study questions by the author.
