United States, officially United States of America, abbreviated U.S. or U.S.A., byname America, country in North America, a federal republic of 50 states. Besides the 48 conterminous states that occupy the middle latitudes of the continent, the United States includes the state of Alaska , at the northwestern extreme of North America, and the island state of Hawaii , in the mid-Pacific Ocean.

United States | History, Map, Flag, & Population | Britannica

The United States emerged as the world's sole remaining superpower and continued to intervene in international affairs during the 1990s, including the 1991 Gulf War against Iraq. Following his election in 1992 , President Bill Clinton oversaw one of the longest periods of economic expansion and unprecedented gains in securities values, a side effect of the digital revolution

“Edward Janak's *A Brief History of Schooling in the United States* offers a pithy, fast-paced, and often humorous introduction to the history of education. In this one-of-a-kind account, he invitingly guides readers through some of the field's challenging terrain while piquing interest in learning more.” (Jackie M. Blount, Professor of Educational Studies, Ohio State University, USA)

The history of the United States is what happened in the past in the United States, a country in North America. Native Americans lived in the Americas for thousands of years. English people in 1607 went to the place now called Jamestown, Virginia. Other European settlers went to the colonies, mostly from England and later Great Britain.

A Brief History Of The United States 'War On Drugs'. Many drugs that are currently illegal, such as opium, cocaine, and psychedelic drugs, have been around for thousands of years, and used for both spiritual and medical purposes. Certain drugs throughout the years, however, have become illegal. This motion, put forth by the government, is not due to a scientific assessment of the risks that come along with the drugs, so much as who is associated with each specific drug.

This title concisely relates the nation's history from the age of Discovery to the Presidential election of 2000, using direct language and highlighted names, terms and phrases that make essential points easy to grasp and recall. It includes 16 chapters and an Instructor's Manual.

Read Online The United States A Brief Narrative History

This book presents a sweeping overview of the historical and philosophical foundations of schooling in the United States. Beginning with education among the indigenous peoples of the Americas and going on to explore European models of schooling brought into the United States by European colonists, the author carefully traces the arc of educational reform through major episodes of the nation's history. In doing so, Janak establishes links between schools, politics, and society to help readers understand the forces impacting educational policy from its earliest conception to the modern day. Chapters focus on the philosophical, political, and social concepts that shaped schooling of dominant and subcultures in the United States in each period. Far from being merely concerned with theoretical foundations, each chapter also presents a snapshot of the "nuts and bolts" of schooling during each period, examining issues such as pedagogical devices, physical plants, curricular decisions, and funding patterns.

"A Brief History of the United States" by Joel Dorman Steele. Published by Good Press. Good Press publishes a wide range of titles that encompasses every genre. From well-known classics & literary fiction and non-fiction to forgotten?or yet undiscovered gems?of world literature, we issue the books that need to be read. Each Good Press edition has been meticulously edited and formatted to boost readability for all e-readers and devices. Our goal is to produce eBooks that are user-friendly and accessible to everyone in a high-quality digital format.

This book provides a representation of a world in which none of us have lived and of its potential dynamics. It looks at the interaction of tendencies such as democratization, technological expansion, regional integration, and the obsolescence of war, and discusses U.S. role in changing world order.

This book surveys the complicated history of U.S.-Chinese relations. After two brief chapters providing historical context, the focus shifts to the mid-twentieth century, the wartime alliance, the war's bitter aftermath, and the decades since World War II, including the path from normalisation to China's hosting of the 2008 Summer Olympics. The author traces the ways in which the two countries have managed the blend of common and competitive interests in their economic and strategic relationships; the shifting political base for Sino-American relations within each country; the emergence and dissolution of rival political coalitions supporting and opposing the relationship; the evolution of each society's perceptions of the other; and ongoing differences regarding controversial topics like Taiwan and human rights. The author's early years in China, American education, and career as a China expert and an advisor on U.S.-China relations and cultural affairs for over fifty years, have afforded him unique opportunities to observe and participate in the development of this important relationship.

In this Second Edition of this radical social history of America from Columbus to the present, Howard Zinn includes substantial coverage of the Carter, Reagan and Bush years and an Afterword on the Clinton presidency. Its commitment and vigorous style mean it will be compelling reading for undergraduate and post-graduate students and scholars in American social history and American studies, as well as the general reader.

Read Online The United States A Brief Narrative History

Written by top scholars of American History, AMERICAN PASSAGES, BRIEF SECOND EDITION examines U.S. history the way people live?in the flow of real time. Rather than pursuing one topic (such as politics, culture, society, reform, the military, or economics) at a time, each chapter of the text interweaves important themes and issues into one clear narrative. Through this method of presentation as well as through the primary source material in every chapter, students can observe the many ways that events, movements, and groups of people have served to shape history and can learn to make connections between these themes and issues. This revision includes expanded review materials and pedagogy to help students get through the course as well as a free AMERICAN PASSAGES Book Companion Website created by Ed Ayers. This site includes chapter-by-chapter quizzing, interactive maps, videos, audio, and links to over 400 readings.
